

Senior Attorney, Biodiversity Defense Program

Earthjustice

Bozeman | Chicago | Denver | Los Angeles | Miami | New York | San Francisco | Seattle | Tallahassee  
Washington, DC

The Biodiversity Defense Program of Earthjustice is seeking a Senior Attorney to join our team of lawyers and advocates who work to stem the growing crisis of biodiversity loss. This role will be responsible for developing, filing, and litigating cases that advance a nationwide advocacy campaign to protect and preserve our remaining biodiversity, with a potential subject-matter focus ranging from insect pollinators to grizzly bears. The position may be based in our Seattle, San Francisco, Los Angeles, Bozeman, Denver, Chicago, New York, Washington, DC, Miami or Tallahassee offices. If compelling circumstances warrant, a remote work location may also be considered. Because the Biodiversity Defense Program has a nationwide focus, this position may entail occasional travel. The position is available immediately.

Earthjustice is the premier nonprofit environmental law organization. We take on the biggest, most precedent-setting cases across the country. We wield the power of law and the strength of partnership to protect people's health; to preserve magnificent places and wildlife; to advance clean energy; and to combat climate change. We partner with thousands of groups to engage on the critical environmental issues of our time and bring about positive change. We are here because the earth *needs a good lawyer*.

Founded in 1971, Earthjustice has a distinguished track record of achieving significant, lasting environmental protections. We achieve this by hiring people who share a passion for justice and a healthy environment. Our headquarters are in San Francisco with offices in Anchorage, Bozeman, Chicago, Denver, Honolulu, Juneau, Los Angeles, Miami, New York, Philadelphia, Seattle, Tallahassee, and Washington, DC.

Earthjustice launched a new Biodiversity Defense Program in the summer of 2021 to build upon our 50-year legacy of protecting wildlife species and their habitat by focusing renewed attention on the biggest drivers of biodiversity loss, including habitat destruction and over-exploitation of wildlife. The program's work is bringing Earthjustice's strategic, collaborative, and hard-hitting approach to environmental protection into new geographies and issues. In addition, because this work is immense and intersectional, a key piece of this program's strategy is partnering with our 14 regional offices and programs to add litigation and policy knowledge to their work and to build new partnerships. Further, we aim to advance policies to protect habitat critical to the survival of species, such as a national plan to permanently protect America's carbon-dense and biodiverse old-growth forests, reform of the federal oil and gas leasing program, and promulgation of regulations to implement the Endangered Species Act. The Biodiversity Defense Program currently consists of a Managing Attorney, two Senior Attorneys, an Associate Attorney, and a Litigation Assistant.

Our practice increasingly emphasizes a mentorship culture for staff at all levels, and we expect that every Senior Attorney will help nurture the development of early-career attorneys and other staff. Senior Attorneys also supervise Associate Attorneys and Litigation Assistants in connection with their work on particular projects and will be asked to serve as the formal supervisor for one or more team members.

Due to Covid-19, Earthjustice staff are temporarily working remotely from approved locations.
